

Table of Content

The effect of Paraquat Dichloride application on diversity and abundance of soil arthropods in the corn field	1-6
<i>Tjandra Anggraeni, Taufikurahman, Meilisa, Yeyet Setiawati, Isma Fadilla, Asih Suryati</i>	
The Physiological Responses of Water Hyacinth (<i>Eichhornia crassipes</i> (Mart). Solms) and Water Lettuce (<i>Pistia stratiotes</i> L.) as Trivalent Chromium Bioaccumulator	7-14
<i>Rizka Purnamawati, Taufikurahman, Andira Rahmawati, Chalvin Rura Putra, Din Dzakamala Fafi Rahmatilah, Findy Ashgi</i>	
Chemical content in Two Teak Woods (<i>Tectona grandis</i> Linn.F.) that has been used for 2 years and 60 years	15-19
<i>Enih Rosamah, Fera Ferliyanti, Harlinda Kuspradini, Rudi Dungani, Pingkan Aditiawati</i>	
Bioconversion of Napier Grass Mixed with Soybean Curd Residue Producing Bioethanol through Simultaneous Saccharification and Fermentation in a Solid State Culture	20-30
<i>Taufikurahman, Jessica</i>	
A Comparison of Alkali and Biological Pretreatment Methods in Napier Grass (<i>Pennisetum purpureum</i> Scumach.) for Reducing Lignin Content in the Bioethanol Production Process	31-43
<i>Taufikurahman, Wendo Obert Delimanto</i>
