 work load, 302, 311

Z

zinc chloride, 58

List of Reviewers

1. Mohamed Abdelrahem (Institute for Electrical Drive Systems and Power Electronics, Technical University of Munich, Germany)
2. Nur Azam Abdullah (Department of Mechanical Engineering, International Islamic University Malaysia, Malaysia)
3. Nilankush Acharya (Department of Mathematics, Jadavpur University, India)
4. Lawal Lanre Adebayo (Fundamental and Applied Science Department, Universiti Teknologi PETRONAS, Malaysia)
5. Vincentius Surya Kurnia Adi (Chemical Engineering Department, National Chung Hsing University, Taiwan)
6. Fauzan Adziman (Department of Materials, University of Oxford, 21 Banbury Rd, Oxford, United Kingdom)
7. Hamdy Mohy El Din Afefy (Construction Engineering and Management Dept., Faculty of Engineering, Pharos University, Alexandria, On leave from Tanta University, Egypt)
8. Cahyono Agus (Faculty of Forestry, Universitas Gadjah Mada, Indonesia)
9. Iftikhar A. Ahmad (Department of CS and IT, Mirpur University of Science and Technology (MUST), Mirpur, AJK, Pakistan)
10. Razi Ahmad (Faculty of Civil Engineering Technology, Universiti Malaysia Perlis, Malaysia)
11. Akmal Akmaluddin (Civil Engineering Department, Mataram University, Indonesia)
12. Muhammad Nadeem Akram (Department of Microsystems, University of South-Eastern Norway, Norway)
13. Taufan Alam (Department of Agronomy, Faculty of Agriculture, Universitas Gadjah Mada, Indonesia)
14. Ayman M. Alaskari (Department of Manufacturing Engineering Technology, College of Technological Studies, Kuwait)
15. Mubarak al-Alawi (Department of Civil and Architectural Engineering, Sultan Qaboos University, Oman)
16. Musa Alaydrus (Department of Applied Physics, Graduate School of Engineering, Osaka University, Japan)
17. Muhammad Idrus Alhamid (Refrigeration and Air-Conditioning Laboratory, Mechanical Engineering Department - Faculty of Engineering, Universitas Indonesia, Indonesia)
18. Musab Alhawat (School of Engineering and informatics, University of Bradford, United Kingdom)
19. Sofia W. Alisjahbana (Civil Engineering, Engineering and Computer Science Faculty, Bakrie University, Indonesia)
20. Saeed Hamood Alsamhi (Software Research Institute, Athlone Institute of Technology, Athlone, Ireland)

21. Hany Rizk Ammar (Mechanical Engineering Department, College of Engineering, Qassim University, Saudi Arabia)
22. Aqsha (Department of Bioenergy Engineering and Chemurgy, Faculty of Industrial Technology, Institut Teknologi Bandung, Indonesia)
23. Ali Awaludin (Structural Engineering Laboratory, Department of Civil and Environmental Engineering, Faculty of Engineering, Universitas Gadjah Mada, Indonesia)
24. Shuokr Qarani Aziz (Department of Civil Engineering, College of Engineering, Salahaddin University, Iraq)
25. Mohd Azmi (School of Mechanical Engineering, Engineering Campus, Universiti Sains Malaysia, Malaysia)
26. Osama Al Azzawi (School of Civil Engineering and Mechanics, Huazhong University of Sciences and Technology, China)
27. Srijit Bandyopadhyay (Reactor Safety Division, Bhabha Atomic Research Center, Mumbai, India)
28. Galih Bangga (Institute of Aerodynamics and Gas Dynamics (IAG), University of Stuttgart, Germany)
29. Luigi La Barbera (Laboratory of Biological Structure Mechanics, Department of Chemistry, Materials and Chemical Engineering "G. Natta", Politecnico Di Milano, Italy)
30. Mohammed J.K. Bashir (Department of Environmental Engineering, Faculty of Engineering and Green Technology (FEGT), University Tunku Abdul Rahman, Malaysia)
31. Seyfettin Bayraktar (Department of Naval Architecture and Marine Engineering, Yildiz Technical University, Istanbul, Turkey)
32. Davide Settembre Blundo (Gruppo Ceramiche Gresmalt, Via Mosca 4, Sassuolo, Italy)
33. Matteo Bonomo (Department of Chemistry, Università degli Studi di Torino, Via Pietro Giuria 7, Turin, Italy)
34. Ramaraj Boopathy (Department of Biological Sciences, Nicholls State University, United States)
35. S. Brischetto (Department of Mechanical and Aerospace Engineering, Politecnico di Torino, Torino, Italy)
36. Tatas Brotosudarmo (Ma Chung Research Center for Photosynthetic Pigments (MRCPP) and Department of Chemistry, Universitas Ma Chung, Taiwan)
37. Muhammad Arif Budiyanto (Departement of Mechanical Engineering, Universitas Indonesia, Indonesia)
38. Wahyu Tri Cahyanto (Department of Physics, Universitas Jenderal Soedirman, Indonesia)
39. Changyong Cao (NOAA/NESDIS/Center for Satellite Applications and Research, United States)

40. Alessio Cascardi (ITC-CNR, Construction Technologies Institute - Italian National Research Council, Italy)
41. Chun Kiat Chang (River Engineering and Urban Drainage Research Centre (REDAC), Universiti Sains Malaysia, Malaysia)
42. Saroj K. Chapagain (United Nations University, Institute for the Advanced Study of Sustainability, Japan)
43. Taqi Ahmad Cheema (Faculty of Mechanical Engineering, GIK Institute of Engineering Sciences and Technology, Pakistan)
44. Zhengwei Chen (Key Laboratory of Traffic Safety on Track of Ministry of Education, School of Traffic & Transportation Engineering, Central South University, China)
45. Edwin Lenin Chica (Grupo de Investigación Energía Alternativa (GEA), Universidad de Antioquia, Medellín, 050010, Colombia)
46. Chart Chiemchaisri (Department of Environmental Engineering, Faculty of Engineering, Kasetsart University, Thailand)
47. Zakarya Chiremsel (IHSI-LRPI, University of Batna 2, Algeria)
48. Pierfranco Costabile (Lampit (Laboratorio di Modellistica numerica per la Protezione Idraulica del Territorio), Department of Environmental Engineering, University of Calabria, Italy)
49. Sandeep Dahiya (Department of Electronics and Communication Engineering, BPSMV, Sonipat, Khanpur-Kalan, India)
50. Sujan Kumar Das (Department of Physics, Jahangirnagar University, Savar, Dhaka, Bangladesh)
51. Nilesh Tejram Deotale (Department of Computer Engineering TSEC, University of Mumbai, India)
52. Hary Devianto (Department of Chemical Engineering, Faculty of Industrial Technology, Institut Teknologi Bandung, Indonesia)
53. Ridha Djebali (Department of Computer Sciences, ISLAI Beja, University of Jendouba, Environment Boulevard, Tunisia)
54. Muhammad Cholid Djunaidi (Analytical Chemistry Laboratory, Department of Chemistry, Faculty of Science and Mathematics, Diponegoro University, Indonesia)
55. Jingtao Du (College of Power and Energy Engineering, Harbin Engineering University, China)
56. Regan Kyle Dunne (Department of Mechanical and Automation Engineering, Faculty of Engineering and the Built Environment, Tshwane University of Technology, South Africa)
57. Ryuichi Egashira (Department of International Development Engineering, Graduate School of Science and Engineering, Tokyo Institute of Technology, Japan)
58. Abang Annuar Ehsan (Institute of Microengineering and Nanoelectronics (IMEN), Universiti Kebangsaan Malaysia, Malaysia)

59. Birol Elevli (Department of Industrial Engineering, Ondokuz Mayıs University, Turkey)
60. Alireza Entezami (Department of Civil and Environmental Engineering, Politecnico di Milano, Italy)
61. Alireza Eydi (Determent of Industrial Engineering, K.N. Toosi University of Technology, Iran)
62. Pasquale Marcello Falcone (Department of Business and Economics - University of Naples Parthenope, Italy)
63. Yi Fang (Department of Mechanical and Aerospace Engineering, Hong Kong University of Science and Technology, Hong Kong)
64. N. Fatchurrohman (Faculty of Manufacturing Engineering, University Malaysia Pahang, Malaysia)
65. Fatkhan (Exploration and Engineering Seismology Research Group, Institut Teknologi Bandung, Indonesia)
66. E. R. Imam Fauzi (Manufacturing Engineering Group, School of Mechanical Engineering, Universiti Sains Malaysia (USM), Malaysia)
67. Elyes Feki (UR-17-ES11 Laboratory of Application Energy Efficiency and Renewable Energy (LAPER), University of Sciences of Tunis, Tunisia)
68. Tiago Fazerres-Ferradosa (CIIMAR - Interdisciplinary Centre of Marine and Environmental Research of the University of Porto, Portugal)
69. Cristiano Fragassa (University of Bologna, Department of Industrial Engineering, Italy)
70. Bibhu Prasad Ganthia (School of Electrical Engineering, KIIT Deemed to be University, , India)
71. S. H. Gawande (Industrial Tribology Laboratory, Department of Mechanical Engineering, M. E. S. College of Engineering, S. P. Pune University, India)
72. Abdülkadir Güleç (Technical Sciences, Department of Construction, Kahramanmaraş Sütçü İmam University, Turkey)
73. A. Habib (Dept. of Civil Engineering, Eastern Mediterranean University, Turkey)
74. Muhammad Hazwan Hamzah (Department of Biological and Agricultural Engineering, Faculty of Engineering, Universiti Putra Malaysia, Malaysia)
75. Markus Hartono (Department of Industrial Engineering, University of Surabaya, Indonesia)
76. Agus Haryanto (Agricultural Engineering Department, University of Lampung, Indonesia)

77. Noor Zafira Noor Hasnan (Department of Process and Food Engineering, Faculty of Engineering, Universiti Putra Malaysia, Malaysia)
78. Syed Shatir Asghrar Syed Hassan (Faculty of Chemical Engineering, Universiti Teknologi MARA, Malaysia)
79. Weipeng He (Department of Water Engineering and Science, College of Civil Engineering, Hunan University, China)
80. Zuchra Helwani (Departement of Chemical Engineering, Riau University, Indonesia)
81. Luky Hendraningrat (Petronas Research Sdn. Bhd, Malaysia)
82. Joni Hermana (Department of Environmental Engineering, Faculty of Civil, Environmental, and Geo Engineering, Institut Teknologi Sepuluh Nopember, Indonesia)
83. Risanuri Hidayat (Gadjah Mada University, Electrical and Information Technology Engineering Departement, Indonesia)
84. Anh Tuan Hoang (Institute of Engineering, Ho Chi Minh city University of Technology (HUTECH), Viet Nam)
85. Chuah Cheng Hock (Departments of Chemistry, Faculty of Science, University of Malaya, Malaysia)
86. Md Sanwar Hossain (Department of Electrical and Electronic Engineering, Bangladesh University of Business and Technology (BUBT), Bangladesh)
87. Seyed Saeid Hosseini (Membrane Science and Technology Research Group, Department of Chemical Engineering, Tarbiat Modares University, Iran)
88. Hooshyar Hossini (Department of Environmental Health Engineering, Faculty of Health, Kermanshah University of Medical Sciences, Iran)
89. Nanang Husin (Computer Science Faculty, University of Indonesia, Indonesia)
90. Sadiq Hussain (Dibrugarh University, India)
91. Aniza Ibrahim (Department of Civil Engineering, Universiti Pertahanan Nasional Malaysia, Kuala Lumpur, Malaysia)
92. Iswandi Imran
93. Çağatay Iris (School of Management, University of Liverpool, United Kingdom)
94. Noorain Mohd Isa (Department of Environment, Faculty of Forestry and Environment, Universiti Putra Malaysia, Malaysia)
95. Baharuddin Ismail (Centre of Excellence for Renewable Energy (CERE), School of Electrical System Engineering, University Malaysia Perlis, Malaysia)
96. Ismiyarto (Organic Laboratory, Departement of Chemistry, Faculty of Science and Mathematics, Diponegoro University, Indonesia)

97. Jijo James (SSN College of Engineering, Rajiv Gandhi Salai, India)
98. Md Ashadi Johari (Department of Electronic Engineering, Faculty of Electrical and Electronic Engineering Technology, University Technical Malaysia Melaka, Malaysia)
99. Sparsh Johari (Dept. of Civil Engineering, Indian Institute of Technology Delhi, India)
100. Jesse V. Jokerst (Department of NanoEngineering, University of California, United States)
101. Helen Julian (Department of Chemical Engineering, Institut Teknologi Bandung, Indonesia)
102. Sokhee Philemon Jung (Department of Environmental and Energy Engineering, Chonnam National University, South Korea)
103. Annisa Jusuf (Lightweight Structure Research Group, Faculty of Mechanical and Aerospace Engineering, Institut Teknologi Bandung, Indonesia)
104. Shah Kabir (University of Houston, United States)
105. K.A. Kapasakalis (Institute of Structural Analysis, Antiseismic Research School of Civil Engineering, National Technical University of Athens Zografou Campus, Athens, Greece)
106. H. Kasban (Engineering Department, Nuclear Research Center, Atomic Energy Authority, Egypt)
107. Ali Kayabaşı (Department of Geological Engineering, Eskisehir Osmangazi University, Turkey)
108. Muhammad Yasir Khalid (Department of Mechanical Engineering, University of Management & Technology Lahore, Pakistan)
109. Mohammed Rajik Khan (Department of Industrial Design, National Institute of Technology, India)
110. Asif Hussain Khoja (; Fossil Fuel Laboratory, Department of Thermal Energy Engineering, U.S-Pakistan Centre for Advanced Studies in Energy (USPCASE), National University of Sciences & Technology (NUST), Pakistan)
111. Mohammad Sadegh Keikhosravi Kiany (Faculty of Geographical Sciences and Planning, University of Isfahan, Iran)
112. Masaru Kitahara (Leibniz Universität Hannover, Institute for Risk and Reliability, Germany)
113. Motoyoshi Kobayashi (Faculty of Life and Environmental Sciences, University of Tsukuba, Japan)
114. J. Kok (Department of Biomedical Engineering, Lund University, Sweden)
115. Pooran Koli (Department of Chemistry, Jai Narain Vyas University, India)
116. Serdar Korkmaz (Department of Civil Engineering, Uludag University, Turkey)

117. Sugeng Krisnanto (Geotechnical Engineering Research Group, Faculty of Civil & Environmental Engineering, Institut Teknologi Bandung, Indonesia)
118. Fatih Kulahci (Nuclear Physics Division, Physics Department, Science Faculty, Firat University, Turkey)
119. Ivan Kurnia (Petroleum Recovery Research Center, New Mexico Institute of Mining & Technology, 801 Leroy Place, Socorro, United States)
120. Jundika Candra Kurnia (Department of Mechanical Engineering, Universiti Teknologi Petronas, Malaysia)
121. Ari Kusyanti (Department of Computer Science, Universitas Brawijaya, Indonesia)
122. Kun-sang Lee (Department of Earth Resources and Environmental Engineering, Hanyang University, South Korea)
123. Min Lee Lee (Faculty of Engineering, The University of Nottingham Malaysia Campus, Malaysia)
124. Djoko Legono (Department of Civil and Environmental Engineering, Faculty of Engineering, Universitas Gadjah Mada, Indonesia)
125. Hua Liang (Science and Technology on Plasma Dynamics Laboratory, Air Force Engineering University, China)
126. Shiyong Liao (College of Traffic & Transportation, Chongqing Jiaotong University, China)
127. Han Ay Lie (Department of Civil Engineering, Diponegoro University, Indonesia)
128. Blaž Likozar (Department of Catalysis and Chemical Reaction Engineering, National Institute of Chemistry, Slovenia)
129. Luiz Eduardo Melo Lima (Federal University of Technology-Paraná, Brazil)
130. Shuang Liu (Hubei Subsurface Multi-scale Imaging Key Laboratory, Institute of Geophysics and Geomatics, China University of Geosciences, China)
131. Yunquan Liu (College of Energy, iChEM, Xiamen University, China)
132. Valentina Lombardi (Dept. of Engineering, Università Roma Tre, Italy)
133. Rossy Armyn Machfudiyanto (Department Civil Engineering, Faculty of Engineering, University of Indonesia, Indonesia)
134. Rani Maharani (Department of Chemistry, Faculty of Mathematics and Natural Sciences, Universitas Padjadjaran, Indonesia)
135. Wayan Firdaus Mahmudy (Faculty of Computer Science, Brawijaya University, Indonesia)

136. M. B. Benjula Anbu Malar (School of Information Technology and Engineering, Vellore Institute of Technology, India)
137. Sholeh Ma'mun (Department of Chemical Engineering, Universitas Islam Indonesia, Indonesia)
138. Mahmoud Mani (Aerospace Department, Amirkabir University of Technology (Tehran Polytechnic), Iran)
139. Tariq Al-Mansoori (College of Engineering, University of Al-Muthanna, Samawah, Iraq)
140. Lisendra Marbelia (Department of Chemical Engineering Faculty of Engineering, Universitas Gadjah Mada, Indonesia)
141. Taufan Marhaendrajana (Department of Petroleum Engineering, Faculty of Mining and Petroleum Engineering, Institut Teknologi Bandung, Indonesia)
142. Khairul Nizam Abdul Maulud (Smart and Sustainable Township Research Centre (SUTRA), Faculty of Engineering & Built Environment, Universiti Kebangsaan Malaysia, Malaysia)
143. Sally E. Maynard (Transport Safety Research Centre, School of Design and Creative Arts, Loughborough University, United Kingdom)
144. Mohamed Mehana (Computational Earth Science Group, Los Alamos National Laboratory, United States)
145. Nandkumar Mishra (Department of Mechanical Engineering, Sardar Patel College of Engineering, India)
146. Mochammad Agoes Moelyadi (Faculty of Mechanical and Aerospace Engineering, Institut Teknologi Bandung, Indonesia)
147. Masoud Mohebbi (School of Railway Engineering, Iran University of Science and Technology, Iran)
148. Debora Muchahary (Department of ECE, SR University, India)
149. Prasantha R. Mudimela (Lovely Professional University, India)
150. Andi Haris Muhammad (Department of Marine Engineering, Faculty of Engineering, Hasanuddin University, Indonesia)
151. Muhammad Mukhlisin (Department of Civil Engineering, Politeknik Negeri Semarang, Indonesia)
152. Gurusamy Kuttralam-Muniasamy (Department of Biotechnology and Bioengineering, Centro de Investigación y de Estudios Avanzados del Instituto Politécnico Nacional, Mexico)
153. Muhammad Junaid Munir (School of Engineering, RMIT University, Australia)
154. João Valente Nabais (Comprehensive Health Research Center (CHRC), Departamento de Química, Escola de Ciências e Tecnologia, Universidade de Évora, Portugal)
155. Abhimanyu Nain (Guru Jambheshwar University of Science and Technology, India)

156. Gustavo Henrique Nalon (Department of Civil Engineering, Federal University of Viçosa, Brazil)
157. Paisarn Naphon (Thermo-Fluids and Heat Transfer Enhancement Lab. (TFHT), Department of Mechanical Engineering, Faculty of Engineering, Srinakharinwirot University, Thailand)
158. Roberto Nascimbene (Construction and Infrastructure, EUCENTRE, European Centre for Training and Research in Earthquake Engineering, Italy)
159. M. Z. Naser (Glenn Department of Civil Engineering, Clemson University, United States)
160. Ramli Nazir (Department of Geotechnic and Transportation, Faculty of Civil Engineering, Universiti Teknologi Malaysia, Malaysia)
161. Ngoc Thang Nguyen (School of Textile - Leather and Fashion, Hanoi University of Science and Technology, Viet Nam)
162. Jan Nisar (National Centre of Excellence in Physical Chemistry, University of Peshawar, Pakistan)
163. Mohd Zuhair Mohd Nor (Department of Process and Food Engineering, Faculty of Engineering, Universiti Putra Malaysia, Malaysia)
164. Ignatius Pulung Nurprasetio (Faculty of Mechanical and Aerospace Engineering, Institut Teknologi Bandung, Indonesia)
165. P.K.V.R. Padalu (Earthquake Engineering Research Centre, International Institute of Information Technology Hyderabad, India)
166. Debajyoti Pal (IP Communications Laboratory, School of Information Technology, King Mongkut's University of Technology Thonburi, Thailand)
167. Sadanand Pandey (Department of Chemistry, College of Natural Sciences, Yeungnam University, Republic of Korea)
168. Ngoc Bao Pham (Institute for Global Environmental Strategies (IGES), Japan)
169. Hang Ping (State Key Laboratory of Advanced Technology for Materials Synthesis and Processing, Wuhan University of Technology, China)
170. Henrique J.O. Pinho (Ci2—Smart Cities Research Center, Instituto Politécnico de Tomar, Estrada da Serra, Portugal)
171. Sahar Hadi Pour (School of Civil Engineering, Faculty of Engineering, Universiti Teknologi Malaysia (UTM), Malaysia)
172. N. Manikanda Prabu (Department of Mechanical Engineering, Presidency University, India)
173. Chaiwat Prapainainar (Department of Chemical Engineering, King Mongkut's University of Technology North Bangkok, Thailand)

174. Arun C.S.V. Prasad (Department of Civil Engineering, Indian Institute of Technology (BHU), India)
175. Durga Prasad (Mechanical Engineering Department, Meerut Institute of Engineering and Technology, India)
176. Catalin I. Pruncu (Design, Manufacturing & Engineering Management, University of Strathclyde, United Kingdom)
177. Eko Pujiyanto (Industrial Engineering Department, Faculty of Engineering, Sebelas Maret University, Indonesia)
178. Julwan Hendry Purba (Center for Nuclear Reactor Technology and Safety, National Nuclear Energy Agency of Indonesia (BATAN), Indonesia)
179. Heriansyah Putra (Department of Civil and Environmental Engineering, IPB University, Indonesia)
180. Ryan Anugrah Putra (Helmholtz-Zentrum Dresden-Rossendorf (HZDR), Institute of Fluid Dynamics, Germany)
181. Dinar Dwi Anugerah Putranto (Fakultas Teknik Universitas Sriwijaya, Indonesia)
182. Youzheng Qi (Key Laboratory of Electromagnetic Radiation and Sensing Technology, Chinese Academy of Sciences, China)
183. Vijaybabu T. R. (Department of Mechanical Engineering, Amrita School of Engineering, Amrita Vishwa Vidyapeetham, India)
184. Muhammad Rafiq (Beijing Key Laboratory of High Voltage and EMC, School of Electric and Electronic Engineering, North China Electric Power University, China)
185. T. Raghavendra (Department of Civil Engineering, R. V. College of Engineering, VTU, India)
186. Omeid Rahmani (Department of Natural Resources Engineering and Management, School of Science and Engineering, University of Kurdistan Hewlêr (UKH), Iraq)
187. Manickam Ramesh (Department of Mechanical Engineering, KIT-Kalaignarkaranidhi Institute of Technology, India)
188. Mohammad M. Rasheed (College of Engineering, University of Information Technology and Communications, Ministry of Higher Education and Scientific Research, Iraq)
189. Ali Murtaza Rasool (National Engineering Services Pakistan (NESPAK), Pakistan)
190. Hanz Richter (Department of Mechanical Engineering, Cleveland State University, United States)
191. D. D. Risanti (Department of Engineering Physics, Institut Teknologi Sepuluh Nopember, Indonesia)
192. Michele Rocca (Department of Energy, Systems, Territory and Constructions Engineering (DESTeC), Italy)
193. Dedi Rohendi (Department of Chemical Engineering, Universitas Sriwijaya, Indonesia)

194. Hynek Roubik (Department of Sustainable Technologies, Faculty of Tropical AgriSciences, Czech University of Life Sciences Prague, Switzerland)
195. Indrajit G. Roy (Spaceage Geoconsulting, Australia)
196. Riries Rulaningtyas (Biomedical Engineering, Physics Department, Faculty of Science and Technology, Universitas Airlangga, Surabaya, Indonesia)
197. Gaurav Saini (Department of Civil Engineering, Sharda University, India)
198. Abdul Salam (Department of Plant Sciences, Quaid-I-Azam University Islamabad, 45320, Pakistan)
199. Samaila Saleh (School of Civil Engineering, Universiti Teknologi Malaysia, Malaysia)
200. M. S. Salleh (Fakulti Kejuruteraan Pembuatan, Universiti Teknikal Malaysia Melaka, Malaysia)
201. Priyaranjan Samal (School of Mechanical Sciences, Indian Institute of Technology Bhubaneswar, India)
202. Nonni Soraya Sambudi (Department of Chemical Engineering, Universiti Teknologi Petronas, Malaysia)
203. S. M. Sapuan (Department of Mechanical and Manufacturing Engineering, Universiti Putra Malaysia, Malaysia)
204. Allah Bux Sargano (School of Computing and Communications Infolab21, Lancaster University, United Kingdom)
205. Fitri Nur Indah Sari (Department of Materials Science and Engineering, National Cheng Kung University, Taiwan)
206. R. Sugeng Joko Sarwono (Laboratory of building Physics and Acoustics, Engineering Physics, Institut Teknologi Bandung, Indonesia)
207. H. N. J. Schifferstein (Department of Human-Centered Design, Delft University of Technology, Netherlands)
208. K. Selvaraj (PSNA College of Engineering and Technology, India)
209. Payam Shafigh (Department of Architecture, Faculty of Built Environment, University of Malaya, Malaysia)
210. Junlong Shang (Nanyang Center for Underground Space, School of Civil and Environmental Engineering, Nanyang Technological University, Singapore)
211. M. V.N. Sivakumar (Department of Civil Engineering, National Institute of Technology Warangal, India)
212. Mochamad Solikin (Civil Engineering Department, Universitas Muhammadiyah Surakarta Indonesia, Indonesia)
213. B. M. Sopha (Industrial Engineering Program, Department of Mechanical and Industrial Engineering, Universitas Gadjah Mada, Indonesia)

214. Riaan Stopforth (Mechatronics and Robotics Research Group Bio-Engineering Unit, Stopforth Mechatronics, Robotics and Research Lab, University of KwaZulu-Natal, South Africa)
215. Maciej Sułowicz (Institute on Electromechanical Energy Conversion, Cracow University of Technology, Poland)
216. Bhakti Yudho Suprpto (Dept. of Electrical Engineering, Universitas Sriwijaya, Indonesia)
217. Benny Suryanto (School of Energy, Geoscience, Infrastructure and Society, Institute for Infrastructure and Environment, Heriot-Watt University, United Kingdom)
218. Bambang Suryoatmono (Department of Civil Engineering, Parahyangan Catholic University, Indonesia)
219. Herri Susanto (Department of Chemical Engineering, Institut Teknologi Bandung, Indonesia)
220. Susilawati (School of Engineering, Monash University Malaysia, Malaysia)
221. R. Talebitooti (School of Mechanical Engineering, Iran University of Science and Technology, Iran)
222. Jafril Tanjung (Civil Engineering Department, Universitas Andalas, Indonesia)
223. Bassam A. Tayeh (Civil Engineering Department, Faculty of Engineering, Islamic University of Gaza, Palestine)
224. Hamid Tebyaniyan (Islamic Azad University, Science and Research Branch, Iran)
225. B.X. Thanh (Ho Chi Minh City University of Technology (HCMUT), Vietnam)
226. Hong Tian (Faculty of Engineering, China University of Geosciences, China)
227. Hing Yan Tong (College of Professional and Continuing Education, The Hong Kong Polytechnic University,, Hong Kong)
228. Francesco Tornabene (Department of Innovation Engineering, University of Salento, Italy)
229. Janusz Torzewski (Institute of Robots and Machines Design, Faculty of Mechanical Engineering, The Military University of Technology, Poland)
230. Tomasz Trzepieciński (Department of Manufacturing and Production Engineering, Faculty of Mechanical Engineering and Aeronautics, Rzeszow University of Technology, Poland)
231. Mert Sinan Turgut (Mechanical Engineering Department, Faculty of Engineering, Ege University, Turkey)
232. Tariq Umar (Dept. of Civil Engineering, Surveying, and Construction Management, Kingston Univ, United Kingdom)

233. Florin Emilian Țurcanu (Department of Building Services, Faculty of Civil Engineering and Building Services, Gheorghe Asachi Technical University of Iasi, Romania)
234. G. Tubon Usca (Faculty of Sciences and Mechanical Engineering, Escuela Superior Politécnica de Chimborazo, Ecuador)
235. Sümeyye Üstüntağ (Faculty of Engineering, Department of Textile Engineering, Turkey)
236. Songkot Utara (Polymer and Material Research Groups, Faculty of Science, Udon Thani Rajabhat University, Thailand)
237. Germán Giacomán-Vallejos (Facultad de Ingeniería, Universidad Autónoma de Yucatán, Avenida Industrias No Contaminantes por Anillo Periférico Norte Apdo.Postal 150 Cordemex, Mexico)
238. Chetankumar S. Vegad (Department of Aerospace Engineering, and National Centre for Combustion Research Development, Indian Institute of Technology Madras, India)
239. Hao Wang (Key Laboratory of C and PC Structures of Ministry of Education, Southeast University, China)
240. Xiushan Wang (College of Mechanical and Electrical Engineering, Henan Agricultural University, China)
241. Mick Van Der Wegen (Department of Water Science and Engineering, IHE Delft, Netherlands)
242. Gede Wibawa (Department of Chemical Engineering, Faculty of Industrial Technology, Sepuluh Nopember Institute of Technology (ITS), Indonesia)
243. Yusuf Wibisono (Bioprocess Engineering, Brawijaya University, Indonesia)
244. Pramujo Widiatmoko (Department of Chemical Engineering, Institut Teknologi Bandung, Indonesia)
245. Martin Wijaya (Department of Civil Engineering, Faculty of Engineering, Parahyangan Catholic University, Indonesia)
246. I Ketut Gede Wirawan (Department of Mechanical Engineering, Udayana University, Indonesia)
247. Riza Wirawan (Materials Engineering, Faculty of Mechanical and Aerospace Engineering, Institut Teknologi Bandung, Indonesia)
248. Jian Wu (Center for Rubber Composite Materials and Structures, Harbin Institute of Technology, China)
249. Shofarul Wustoni (Organic Bioelectronics Laboratory, Biological Science and Engineering Division (BESE), King Abdullah University of Science and Engineering (KAUST), Saudi Arabia)
250. Yang Xiao (State Key Laboratory of Coal Mine Disaster Dynamics and Control, Chongqing University, China)

251. Yegui Xiao (Prefectural University of Hiroshima, Dept. of Management and Information System, Japan)
252. Fatemeh Yousefian (Department of Environmental Health Engineering, Tehran University of Medical Sciences, Iran)
253. Nur Izzi Md Yusoff (Dept. of Civil Engineering, Universiti Kebangsaan Malaysia, Malaysia)
254. Yonik Meilawati Yustiani (Department of Environmental Engineering, Universitas Pasundan, Indonesia)
255. Mohammad Zabetian (Faculty of Mechanical Engineering, Tarbiat Modares University, Iran)
256. M. Ishtiaque A. Zahed (School of Science, Engineering, and Technology East Delta University, Bangladesh)
257. Fujun Zhang (Shandong University of Science and Technology, China)
258. Yufen Zhang (School of Civil and Transportation Engineering, Hebei University of Technology, China)
259. Li Zhou (State Key Laboratory of Hydraulics and Mountain River Engineering, College of Water Resource & Hydropower, Sichuan University, China)

Journal of Engineering and Technological Sciences

Guidelines for Author

1. Standard of reporting

Authors should present an accurate account of the work performed as well as an objective discussion of its significance. Underlying data should be represented accurately in the paper. A paper should contain sufficient detail and references to permit others to replicate the work. Fraudulent or knowingly inaccurate statements constitute unethical behavior and are unacceptable. Professional publication articles should also be accurate and objective, and editorial 'opinion' works should be clearly identified.

2. Exclusivity of work

The authors should ensure that they have written entirely original works, and if the authors have used the work and/or words of others this should be appropriately cited or quoted. Plagiarism takes many forms, from 'passing off' another's paper as the author's own paper to copying or paraphrasing substantial parts of another's paper (without attribution), to claiming results from research conducted by others. Plagiarism in all its forms constitutes unethical publishing behavior and is unacceptable. An author should not in general publish manuscripts describing essentially the same research in more than one journal or primary publication. Submitting the same manuscript to more than one journal concurrently constitutes unethical publishing behaviour and is unacceptable. In general, an author should not submit for consideration in another journal a previously published paper. We consider for publication from conference paper if it is only an extended version of conference paper with at least 30% of new material.

3. Hazards and Human or Animal Subjects

If the work involves chemicals, procedures or equipment that have any unusual hazards inherent in their use, the author must clearly identify these in the manuscript. If the work involves the use of animal or human subjects, the author should ensure that the manuscript contains a statement that all procedures were performed in compliance with relevant laws and institutional guidelines and that the appropriate institutional committee(s) has approved them. Authors should include a statement in the manuscript that the informed consent was obtained for experimentation with human subjects. The privacy rights of human subjects must always be observed.

4. Authorship of the Paper and Copyright

Authorship should be limited to those who have made a significant contribution to the conception, design, execution, or interpretation of the reported work. All those who have made significant contributions should be listed as co-authors. Whilst those who have participated in certain substantive aspects of the research project, they should be acknowledged or listed as contributors. The corresponding author should ensure that all appropriate and inappropriate co-authors are included on the paper, and that all co-authors have seen and approved the final version of the paper and have agreed to its submission for publication. No manuscript can be published unless accompanied by a signed publication agreement, which serves as a transfer of copyright from author to publisher. A copy of that agreement is required after the paper is accepted.

5. Acknowledgement

Proper acknowledgment of the work of others must always be given. Authors should cite publications that have been influential in determining the nature of the reported work. Information obtained privately, as in conversation, correspondence or discussion with third parties, must not be used or reported without explicit, written permission from the source. Information obtained in the course of confidential services, such as refereeing manuscripts or grant applications, must not be used without the explicit written permission of the author of the work involved in these services.

6. Disclosure Requirements

Author when submitting a manuscript, must disclose any meaningful affiliation or involvement, either direct or indirect, with any organization or entity with a direct financial interest in the subject matter or materials discussed (for example, employment, consultancies, stock ownership, grants, patents received or pending, royalties, honoraria, expert testimony). These kinds of financial involvement are fairly common, unavoidable, and generally do not constitute a basis for rejecting a manuscript. Specifics of the disclosure will remain confidential. If deemed appropriate by the Scientific Editor, a general statement regarding disclosure will be included in the Acknowledgment section of the manuscript.

7. Errors in Published Works

When an author discovers a significant error or inaccuracy in his/her own published work, it is the author's obligation to promptly notify the journal editor or publisher and cooperate with the editor to retract or correct the paper. If the editor or the publisher learns from a third party that a published work contains a significant error, it is the obligation of the author to promptly retract or correct the paper or provide evidence to the editor of the correctness of the original paper.

8. Disclaimer

Opinions expressed in articles published in the *Journal of Engineering and Technological Sciences* are those of the author(s) and do not necessarily represent opinions of the Bandung Institute of Technology (ITB). The *Journal of Engineering and Technological Sciences* does not guarantee the appropriateness for any purpose of any method, product, process, or device described or identified in an article. Trade names, when used, are only for identification and do not constitute endorsement by *Journal of Engineering and Technological Sciences*.

9. Manuscript preparation

Use the English language and the SI system (Système International d'Unités, often referred as "International Units") for measurements and units. Manuscript in MS Word or PDF format (generated from MS Word) is to be submitted online through <http://journals.itb.ac.id/index.php/jets>. The length of manuscript is expected not to exceed 20 printed pages (single space) including abstract, figures, tables and references. An abstract between 100 and 200 words describes the significance of manuscript should be included. The authors should supply 5-10 keyword or phrases that characterizes their manuscript. Use 11 pt Times New Roman fonts for body of the text with 1.0 line spacing between lines. The references should be numbered consecutively in the order of their appearance and should be complete, including authors' initials, the title of the paper, the date, page numbers, and the name of the sponsoring society. Please compiles references as shown in the examples below. Figures are printed in black & white, while color figures are only available online. Adjust the size of figures and tables as they will be appeared. All figure captions should be legible, minimum 8 point type. For all equations, use either Microsoft Equation Editor or MathType add-on. Equations are numbered consecutively in parenthesis, e.g. (1), and set at the right margin.
